

Gregory B. Lambright RA
principal architect

Mr. Lambright serves as Principal in Charge of Architekton's corporate and religious projects and development projects. One of the founding partners of Architekton, he is well known in the Southwest for his capability to effectively navigate government processes to ensure a smooth project outcome. He has become an expert at coordinating large-scale building programs and coordinating complex municipal entitlement. Greg has worked to complete more than 2,500 private sector institutional and commercial type projects, while always maintaining a strong client service ethic. Currently Greg is the Managing Principal for the new architectural design of The Church of Jesus Christ of Latter-day Saints Gilbert, Arizona Temple.
